

Finding 1 — Who Drives the Most Revenue?

Key Insight

Returning customers generate the most revenue — yet they rarely receive the same perks as VIP customers.

They're already sold on the brand. That's a missed opportunity.

Limitations & Next Steps

Limitations

500 rows is a small sample — patterns may not generalize

Missing values were estimated, not observed

No customer history — can't measure lifetime value

Return prediction model is a simple baseline

Next Steps

Collect more data for stronger, more reliable findings

Build a customer lifetime value (CLV) model

A/B test the Returning customer loyalty campaign

Investigate product-level return root causes
